BEST thing about
cengage is that it has
lot of questions.

WORST thing about
cengage is that it has
lot of questions.

No book is sufficient for student who does
not focus on concepts.

Any one book is sufficient for student with
good concepts.

A magnifying glass with a black handle and frame is positioned over a document. The word "ANALYSIS" is printed in large, bold, dark blue capital letters in the center of the lens. Below the word, several lines of binary code (0s and 1s) are visible, though slightly blurred. The background of the document is light blue with a subtle pattern of binary code. The magnifying glass is angled from the bottom right towards the top left.
